Ux Skills: Figma, Photoshop

Tools and Platforms: Git, GitHub

Education

MJPR University

Bsc in Maths

Percentage: 73

2021 - 2024

Bijnor, Uttar Pradesh

Experience

Prabhat Khabar

Junior Frontend Developer

December 2024 - January 2026

Delhi

- Built high-traffic interactive widgets for major events (e.g., Bihar Elections), including an election chatbot, news reel, and news snap modules, handling 100,000+ concurrent users during peak traffic.
- Developed the frontend for an internal Election Dashboard used by editorial teams to input live vote counts that updated the election widgets in real time.
- Owned and maintained category page UI using WordPress, ensuring consistent design, performance, and SEO-friendly structure across multiple content sections.
- Optimized JavaScript and CSS for widget interfaces, significantly improving Core Web Vitals, reducing load times, and enhancing overall website performance.
- Developed reusable UI components for the e-paper platform using React, improving component consistency, load performance, and overall user experience.

Nexwe

UI Developer

June 2023 - December 2024

Ghaziabad

- Built responsive landing pages and UI layouts using HTML, CSS, and JavaScript, ensuring mobile and cross-browser support.
- Developed interactive UI elements such as sliders, dropdowns, and form validations to enhance user experience.
- Converted Figma/design mockups into clean, functional, and pixel-aligned web pages.
- Maintained and updated existing website UI, fixing styling issues, improving layout structure, and ensuring consistent branding.
- Performed basic performance optimizations, including image compression and refining CSS/JS to improve load time.
- Collaborated with design and content teams to implement UI updates while following standard UI/UX best practices.
